

## **BioResource Adds Four New PEKANA Medications For Adrenal Regulation, Fever, Gut Infections and Vaccination Stress Reactions**

BioResource has added four new **PEKANA** homeopathic-spagyric medications, including the newly created **SUPREN** oral drops for adrenal regulation. The additions bring the current number of highly effective **PEKANA** medications available in the U.S. to 60. The new remedies are:

**apo-ENTERIT oral drops** – For treatment of diarrhea, abdominal cramps, portal vein stagnation and inflammation of the intestinal tract caused by infections and food poisoning. It also helps resolve diarrhea by supporting proper circulation in the tissues of the digestive tract and a healthy intestinal mucosa. Moreover, this medication helps treat chronic forms of colitis, such as Crohn's disease and Irritable Bowel Syndrome.

**FEPYR oral drops** – Treats fever, as well as the extreme reaction of the body in its attempt to address an underlying infection. Great for children, this medication also fights acute bacterial infections, restores the mucous membranes to a healthy condition, supports the circulatory system and helps relieve general pain and chills.

**SUPREN oral drops** – Adrenal fatigue due to dysfunction of the adrenal glands is widespread in modern society. This condition can have severe implications for the health of the afflicted patient. As a result, it is imperative that adrenal fatigue be addressed with a natural remedy that does not cause any side effects. **SUPREN oral drops help regulate proper adrenal function.** This medication also can be combined with **NEU**-regen and **PSY**-stabil to address mental and physical exhaustion.

**THUJA 3X oral drops** – The single ingredient medication is the classical choice to **minimize adverse acute and chronic vaccination stress reactions.**

**apo-ENTERIT spagyric oral drops** (pronounced ahpo-EN-tair-eet)

**INGREDIENTS/THERAPEUTIC PROFILE**

Colocyntis	4X	abdominal infection and cramps
Podophyllum	4X	stomach and intestinal cramps
Veratrum album	4X	gastroenteritis, improves circulation
Abrotanum	1X	Crohn's disease, wasting
Cynara scolymus	1X	diarrhea, heartburn
Potentilla anserina	1X	spasms, improves intestinal mucosa

**FEPYR spagyric oral drops** (pronounced FAY-peer)

**INGREDIENTS/THERAPEUTIC PROFILE**

Aconitum	4X	fever
Argentum nitricum	4X	antibacterial, combats accompanying restlessness
Arsenicum album	6X	fever, weakness, severe infections
Bryonia	4X	influenza, bronchitis, stabbing pains
China	3X	fever, weakness
Eupatorium	2X	influenza
Lachesis	7X	septic fever
Vincetoxicum	2X	viral infections

**SUPREN spagyric oral drops** (pronounced sue-PREN)

**INGREDIENTS/THERAPEUTIC PROFILE**

Acidum arsenicosum	12X	exhaustion, adrenal fatigue
Acidum sulfuricum	8X	exhaustion, cleanses the adrenal tissues
Chamaelirium luteum	12X	regulates the adrenal glands
Hydrastis canadensis	12X	chronic weakness, supports adrenal functions
Kreosotum	12X	relieves adrenal exhaustion
Lemna minor	12X	regulates the adrenals/central nervous system
Magnesium fluoratum	12X	supports adrenal tissues
Silicea	12X	supports adrenal tissues

**THUJA oral drops** (pronounced too-YUH)

<b>INGREDIENT:</b> Thuja	3X	adverse vaccination stress reactions
--------------------------	----	--------------------------------------

## **apo-ENTERIT spag. drops** (pronounced ahpo-EN-tair-eet)

For treatment of diarrhea

Name: ENTERIT(is) = diarrhea

### **INDICATIONS**

apo-ENTERIT spag. drops - Can be prescribed to treat mild cases of diarrhea that often arise during the summer due to infections, as well as diarrhea due to food poisoning. This medication can also be used to address chronic forms of colitis, such as Crohn's disease and Irritable Bowel Syndrome. apo-ENTERIT also addresses a wide variety of symptoms that may accompany diarrhea such as abdominal cramps, portal vein stagnation and inflammation of the intestinal tract. Finally, apo-ENTERIT helps to resolve diarrhea by supporting proper circulation in the tissues of the digestive tract, digestion and a healthy intestinal mucosa.

### **INGREDIENTS/THERAPEUTIC PROFILE**

Colocynthis	4X	abdominal infection and cramps
Podophyllum	4X	stomach and intestinal cramps
Veratrum album	4X	gastroenteritis, improves circulation
Abrotanum	Ø	Crohn's disease, wasting
Cynara scolymus	Ø	diarrhea, heartburn
Potentilla anserina	Ø	spasms, improves intestinal mucosa

### **RECOMMENDED DOSAGE**

Adults	15-20 drops	3-4 times per day directly or in liquid
School Children	7-10 drops	3 times per day
Small Children	5 drops	3 times per day

In severe cases apo-ENTERIT drops can be taken up to 7 times per day

### **SUGGESTED ADJUVANT THERAPIES**

apo-STOM (GASTUL) drops supports the gastrointestinal tract and regulates stomach functions

OPSONAT drops in severe cases supports the intestinal mucous membranes

SPECI-CHOL drops functional disturbances of the pancreas

PSY-stabil spag. drops emotional stress, anxiety, restlessness and nervous exhaustion

HABIFAC spag. drops inherited, genetic or "constitutional" factors

TOXEX drops general excretion, heavy metals

## **FEPYR spag. drops** (pronounced FAY-peer)

For treatment of fever

Name: FE(bris), PYR(etos)= Fire

### **INDICATIONS**

Infections may be accompanied by fever, whereby fever can be viewed as the body's own immune response. FEPYR not only treats the fever as such, but rather also the extreme reaction of the body in its attempt to address the underlying infection. This remedy also treats acute bacterial infections and restores the mucous membranes to a healthy condition. In addition, the circulatory system is supported, general pain and stabbing pains are relieved, chills and inflammation are addressed, as well as weakness in the soft tissues and joints, fear and unrest. Finally, this remedy also helps the body to speedily recover from the exhaustion that accompanies fever and infection.

### **INGREDIENTS/THERAPEUTIC PROFILE**

Aconitum	4X	fever
Argentum nitricum	4X	antibacterial, combats accompanying restlessness
Arsenicum album	6X	fever, weakness, severe infections
Bryonia	4X	influenza, bronchitis, stabbing pains
China	3X	fever, weakness
Eupatorium	2X	influenza
Lachesis	7X	septic fever
Vincetoxicum	2X	viral infections

### **RECOMMENDED DOSAGE**

Adults	20-25 drops	3-4 times per day directly or in liquid
School Children	15-20 drops	3 times per day
Small Children	15-20 drops	2-3 times per day

### **SUGGESTED ADJUVANT THERAPIES**

apo- <u>HEPAT</u> drops	liver function
apo- <u>INFEKT</u> drops	acute urological infections
<u>CARDINORMA</u> drops	cardiac insufficiency
<u>OPSONAT</u> drops	focal infections, mucous membrane inflammation

## **HELMIN spag. drops**

For treatment of intestinal parasites and intestinal dysfunction

### **INDICATIONS**

On the one hand, HELMIN drops effectively address parasites involved in intestinal infections. On the other hand, this remedy is an intestinal terrain shifter of the first magnitude; it profoundly alters the intestinal environment that allows these illness-causing microbes to establish themselves and proliferate in the first place. If the intestinal flora is in a healthy balance, pathogenic microbes cannot establish themselves and proliferate, and vitamins and minerals become more bioavailable. Here, HELMIN drops are invaluable.

In order to restore the stomach and intestines to health again, several other PEKANA medications are appropriate, including apo-STOM (GASTUL), apo-HEPAT (HECOCUR) and MUCAN drops. However, of primary importance is OPSONAT, which combats inflammation and regulates the mucosa of the digestive tract. It is interesting to note that the effectiveness of HELMIN drops may be increased when combined with OPSONAT. Practitioners who use testing methods such as applied kinesiology may want to consider testing both remedies together.

### **INGREDIENTS/THERAPEUTIC PROFILE**

Allium cepa	6X	abdominal infection, colic
Artemisia abrotanum	8X	eliminates worms, intestinal inflammation
Artemisia cina	12X	proper intestinal function, eliminates worms
Cuprum oxydatum nigrum	12X	proper intestinal function, eliminates worms
Okoubaca aubrevillei	4X	acute gastrointestinal tract infections
Schoenocaulon officinale (Sabadilla)	6X	worms, restores the mucous membrane
Spigelia anthelmia	4X	pain, spasms, eliminates worms

### **RECOMMENDED DOSAGE**

Adults	20 drops	3 times per day directly or in liquid
School Children	7-10 drops	3 times per day
Small Children	5 drops	3 times per day

### **SUGGESTED ADJUVANT THERAPIES**

apo- <u>HEPAT</u> drops	liver function
apo- <u>STOM</u> drops	supports the gastrointestinal tract and regulates stomach function
<u>OPSONAT</u> drops	in severe cases supports the intestinal mucous membranes
<u>SPECI-CHOL</u> drops	functional disturbances of the pancreas
<u>TOXEX</u> drops	general excretion, heavy metals

## **INFLAMYAR spag. drops**

For internal treatment of sports injuries, sprains, bruises, joint problems and acute and chronic inflammation

Name: INFLA(mare)=inflammation, MY(algia)=muscle pain

### **INDICATIONS**

INFLAMYAR spag. drops – This remedy is ideally suited for treating a wide variety of symptoms including sports injuries, as well as joint problems and acute and chronic inflammation. This oral remedy treats rheumatic, arthritic and inflammatory conditions to greatly ease pain and inflammation, bringing relief to afflicted patients. For best results, it should be used in conjunction with INFLAMYAR spag. topical ointment.

### **INGREDIENTS/THERAPEUTIC PROFILE**

Arnica montana	4X	haematoma, rheumatism
Bellis perennis	4X	contusions, haematoma
Bryonia cretica	4X	stinging pain
Gujacum	6X	shortening of the tendon, rheumatic pain
Ledum palustre	12X	gout, numbness, injuries, inflammation
Ruta graveolens	4X	circulation, paralytic symptoms
Toxicodendron quercifolium	8X	rheumatic conditions, inflammation
Viscum album	4X	rheumatic spasms, improves circulation,

### **RECOMMENDED DOSAGE**

Adults	15-20 drops	3 times per day directly or in liquid
School Children	7-10 drops	3 times per day
Small Children	5 drops	3 times per day

### **SUGGESTED ADJUVANT THERAPIES**

apo- <u>RHEUM</u> drops	soft tissue rheumatism
<u>MUNDIPUR</u> drops	tissue detoxification
apo- <u>STOM</u> drops	stomach function
apo- <u>INFEKT</u> drops	bacterial and viral infections
<u>OPSONAT</u> drops	focal infections, mucous membrane inflammation
<u>TOXEX</u> drops	general excretion, heavy metals

## **SUPREN spag. drops** (pronounced soup-REN)

For treatment of adrenal fatigue, stress and dysfunction

### **INDICATIONS**

Adrenal fatigue due to dysfunction of the adrenal glands is wide-spread in modern society. This condition can have severe implications for the health of the afflicted patient. As a result, it is imperative that adrenal fatigue be addressed with a natural remedy without any side effects. On the one hand SUPREN stimulates proper hormone production, and on the other hand it detoxifies, strengthens and stimulates adrenal glands. It is important to note that NEU-regen and PSY-stabil may also be indicated for a time to help treat the mental and physical exhaustion of the adrenal fatigue patients.

### **INGREDIENTS/THERAPEUTIC PROFILE**

Acidum arsenicosum	12X	exhaustion, stimulates adrenal hormone production
Acidum sulfuricum	8X	exhaustion, cleanses the adrenal tissues
Chamaelirium luteum	12X	stimulates the adrenal glands
Hydrastis canadensis	12X	chronic weakness, supports adrenal functions
Kreosotum	12X	relieves adrenal exhaustion, tissue inflammation
Lemna minor	12X	stimulates the adrenals and central nervous system
Magnesium fluoratum	12X	restores adrenal tissues, digestive weakness
Silicea	12X	detoxifies and strengthens adrenal tissues

### **RECOMMENDED DOSAGE**

Adults	15-20 drops	2 times per day directly or in liquid
School Children	7-10 drops	2 times per day

### **SUGGESTED ADJUVANT THERAPIES**

<u>AILGENO</u> drops	spleen function
<u>NEU</u> -regen syrup	mental and physical exhaustion
<u>OPSONAT</u> drops	focal infections, mucous membrane inflammation
<u>PSY</u> -stabil drops	emotional stress, anxiety, restlessness and nervous
<u>RENELIX</u> drops	proper kidney function

## **THUJA spag. drops**

To minimize adverse vaccination stress reactions

### **INDICATIONS**

THUJA spag. drops is the classical remedy of choice to minimize adverse acute and chronic vaccination stress reactions. According James Tyler Kent M.D. (Materia Medica of Homeopathic Remedies), “Thuja is pre-eminently a strong medicine when you have a trace of animal poisoning in the history of the family, such as snake bites, small-pox and vaccinations.” Traditionally Thuja has been an extremely important remedy in the field of classical homeopathy for treating a wide variety of symptoms, such as skin conditions, neuralgic pain, and menstrual problems such as cramps.

#### **INGREDIENTS/THERAPEUTIC PROFILE**

Thuja                      3X        adverse vaccination stress reactions

#### **RECOMMENDED DOSAGE**

Adults	5 drops	1 time per day directly or in liquid
School Children	3 drops	1 time per day
Small Children	1 drops	1 time per day

#### **SUGGESTED ADJUVANT THERAPIES**

<u>AILGENO</u> drops	spleen function
apo- <u>INFEKT</u> drops	bacterial and viral infections
<u>HABIFAC</u> drops	inherited, genetic or “constitutional” factors
<u>MUNDIPUR</u> drops	gentle tissue detoxification
<u>OPSONAT</u> drops	focal infections, mucous membrane inflammation
<u>RENELIX</u> drops	proper kidney function
