

## Enhanced Syntrion EIRA Regenerating Facial Cream for Fine Lines and Wrinkles Now Available

Syntrion has re-introduced its popular EIRA Regenerating daily facial care skin cream for fine lines and wrinkles, and it's better than ever! The new, improved, 100% natural EIRA - which meets the highest international quality standards for natural cosmetics - features non-GMO, plant-based ingredients that include:

- Syntrion's unique Mucor racemosus extract that provides powerful antioxidant effects and helps reduce fine lines and wrinkles
- Hyaluronic Acid for soft & smooth skin
- Organic Glycerin to help bind moisture
- Jojoba Oil that offers long-lasting protection
- Shea Butter as a key moisturizer, and
- Plant-based Benzyl Alcohol

Syntrion also makes EIRA's packaging from recycled materials to promote sustainability. Moreover, later this summer 50 test subjects will undergo independently run patch tests, while 30 will participate in 4 weeks of skin hydration and skin roughness evaluations. Previous testing showed that EIRA users tolerated the skin cream very well, and experienced an average 29.8% increase in skin hydration, while skin roughness decreased by more than 30%.
